EXAMINER'S COMMENT

1. In view of the arguments presented by the Attorney in the response dated 07/17/2006, the Examiner has reconsidered her position and interpreted the angle formed by the cylindrical end face on an inner side of the ceramic tube is being "substantially 90°, but less than 90°", i.e. the angle is always less than 90°. The prior art of record does not teach or suggest, in combination with the claimed elements, "the cylindrical end face on an inner side of the ceramic tube forms an angle of substantially 90°, but less than 90°."

2. Claims 1 and 4 are allowed.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Marina Fishman whose telephone number is 571-272-1991. The examiner can normally be reached on 7-5 M-T.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Elvin Enad can be reached on 571-272-1990. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
